Those classes in red denote new classes for this semester

Monday

MAD SCIENTISTS CLUB

This class is going to be so much fun! The children will don their white lab coats and do all sorts of interactive science experiments. They will learn first hand how and why certain things work! Many of these science experiments will coincide with the Primary School Science curriculum. Watch out for your new “mad scientists”!

HOMEWORK HELPERS K/1, 2, AND 3/4

Tired of all the “homework hassles” of your child doing his/her homework at home? Our qualified staff will help your child complete all homework assignments assigned, and help in any area in which your child needs extra help. Kindergarten and First Grade will be together, Second Grade separately, and Third/ Fourth will be together. When your child gets home – it’s all play! Taught by: Miss Irene, Mrs. Moore, and Mrs. Kramer.

CHEERLEADING

We are proud to announce our association with “Cheertastics LLC”, owned by Andraia Kielar. Her Cheerleading program is designed to enhance school spirit and teamwork! The students will learn all aspects of this sport (yes, cheerleading is a sport!) from her instructors with over 13 years of experience. Classes will include: warm-up, stretch, chants, cheers, jumps, beginner tumbling, beginner stunts, and dances. Check out her website at: www.cheertasticsstars.com.

Tuesday

COOKING WITH COCO

The children will cook or bake something and then write down the recipes (as they remember them!). At the end of the semester you will have a cookbook, like no other cookbook you have ever had, handmade by your own child. You will also be invited to a “Tea Party” on the last day, with goodies made by your children. Of course in order to cook and bake, the children will learn how to use measuring spoons and cups. (uh, oh, don’t tell them that will learn math also!) Mrs. Larmie also teaches them that healthy foods can be delicious!

RECYCLED ART

This is a very popular and fun class. All that “junk” that we throw away everyday will be beautifully molded into beautiful art projects by the children. This is truly the story of one man’s trash is another man’s treasure! The first semester students made gorgeous works of art from objects in our recycle bin!

Wednesday

PIANO LAB

Do you want to have a budding pianist in your household? Your child will master the piano in our piano lab. We have 10 digital pianos and our very own Mrs. Meyers, who has taught piano for many years will teach your children how to read music and attain the dexterity needed for piano playing. * There is a \$50.00 lab/book fee associated with this class.

BASKETBALL

Nestor took us through Soccer season with drills and skills that really improved the children's games. Now, it is Basketball season and we have Alvin Wyatt will teach the children basic skills of basketball including drills, passing, shooting, and team unity. Alvin is the Activities Director at Bethune Cookman College, runs the Y summer camp program, and has coached many kids' basketball teams. * Please make sure your child bring shorts and sneakers for class.

ORFF ORCHESTRA

Orff (Schulwerk) is a way to teach and learn music. It is based on things children like to do: sing, chant rhymes, clap, dance, and keep a beat on anything near at hand. Orff uses poems, rhymes, games, songs, and dances as examples and basic materials. Spoken or sung, they may be accompanied by clapping and stamping or by drums, sticks, and bells. The Orff instruments include wooden xylophones and metal glockenspiels. Played together as in a small orchestra, they provide beautiful syncopated music! **THIS CLASS IS HELD IN THE MORNINGS, BEFORE SCHOOL,(8:20-9:00) AND IS A TWO DAY CLASS, ON WEDNESDAY AND THURSDAY MORNINGS.**

Thursday

PINS AND NEEDLES

You should see what wonderful creations were made by these children first semester. The children will continue to learn sewing skills and will produce a larger, and more personalized version of the pillow that they made 1st semester. Each child's pillow will display appliques, demonstrating their own interests and hobbies. This pillow will be a permanent memorabilia that they can proudly display for the rest of their lives! This class is not only for girls!

TBE MUSICAL THEATRE COMPANY

Mrs. Myers, the Director, Mrs. Moore, the Producer, and Miss Molly, the set and costume designer will combine the talents of the Orff orchestra with our very own "actors" to put on a production for your enjoyment at one of the end of the year shows. This class will incorporate elements of choir, movement, drama and set design, in which everything will be done by the children.

Friday

TBE SCHOOL TRIBUNE

Your children will be newspaper reporters- they will write articles, interview teachers, and produce an edition of the TBE Tribune, which will be circulated to the whole school. This will give your children practice in writing, typing on the computer, organizing, and interviewing. And, yes there will even be a hand drawn comic strip! They will compile and edit the entire newspaper with the help of our very own Mrs. Francine Macdonald. We cannot wait for you to see the finished project, which will “hit the presses” at the end of the nine week semester.

THIS CLASS IS FOR 1ST THROUGH 4TH GRADE STUDENTS ONLY
