This class offers the opportunity for parent or caregiver and baby to participate together in a music and sign language class. Studies have shown time and time again that babies benefit when early musical and signing experiences are provided. Babies, who are held, talked to, sung to and exposed to music and stories form stronger neural connections the their brains. The use of signing allows your baby to clearly communicate specific thoughts, thereby reducing frustration for you and your baby! This class encourages group participation in making music and learning basic signs.

Our fabulous music teacher, Mrs. Sheri Myers instructs this class. Mrs. Meyers has been teaching music at Temple Beth-El school since 1992. In college, she majored in both music and interpreting for the deaf. She also has her Master's Degree in ORFF, Orchestra, and is a certified Sign2Me instructor and presenter.
