Tuesday

Edible Art (12:30 to 1:00)

Taught by Coco Larmie

In this class Mrs. Larmie takes the children into her classroom. They get hands on learning about food while making it fun. It is amazing how much more these children will try once they start helping prepare it. They work on their fine motor skills and get to eat their wonderful creations at the end.

Wednesday

Magical Music (2:00 to 2:30)

Taught by Sheri Myers

Does your child love music? Then again what child doesn't love music with Mrs. Myers, since children learn through the art of music and dance. In this class Mrs. Myers will keep the children involved not only with play and listening to music but she also has them build instruments to play. From her big drum to the rain stick they make they all seem to love this class.

Thursday

Teeny-Tiny Yoga (1:30 to 2:00)

Taught by Sharon Vandevender

Sharon has been teaching yoga for over 7 years, and has been blessed to see the amazing effects yoga has on children! Yoga for kids is fun and helpful for children whose bodies are rapidly developing. The use of animated poses and basic stretching exercises promote strength, flexibility, coordination and body awareness, as well as promoting healthy sleeping habits.

Friday

Creative Hands (12:30 to 1:00)

Taught by Mrs. A

For the artist in them all. They little ones will use different art forms to help them explore the wonderful world of art. One day they could use water colors or maybe they will read a story and do a art project. Each day will be filled with something new and exciting.
